Build an Emberwing

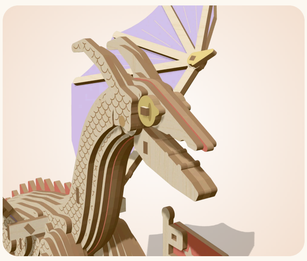

High on a broken tower, Emberwing keeps watch over a chest of gold. Her wings are spread, her claws lock onto the stone, and her jaw opens in a silent roar. Every slice of her body is a 3 mm layer, stacked on hidden keys, with scales drawn by the laser. Lift the lid of the chest to check the gold is still there.

What's inside: 8 sheets that press out by hand

IN THE BOX

152 wooden parts on 8 sheets (plus 6 spare small parts), 2 birch dowels, sandpaper, picture instruction booklet.

EASY TO BUILD

- Every joint is a press fit. No glue.
- Big picture steps, part codes on every sheet.
- Spare small parts on the sheets.
