SOP 7

Shipping

When: Every packed kit, once a day **Time:** About 2 min per kit (Estimate) **Who:** Packer

You need: Planner tablet | Shop app (Shopify or Etsy) | Shipping scale | 4 × 6 in label printer | Packing tape

1

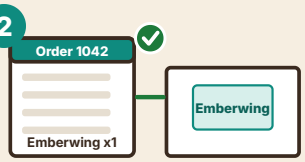

Open the Packed column in the planner.

Ship the oldest orders first.

- Every packed kit has an order.

2

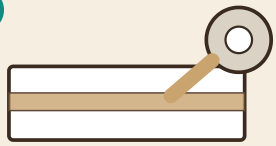

Match the box to the order.

Kit name on the order = kit name on the lid label.

- Gift order? No price slip in the box.

3

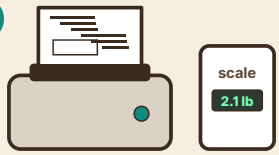

Close and tape the box.

One strip across the opening edge.

- Sheets do not slide when you tilt it.

4

Weigh it and buy the label.

In the shop app, USPS Ground Advantage. Round the weight up.

- Address matches the order.

5

Stick the label on the bottom.

Not over the info label. The lid stays clean, because many kits are gifts.

- Barcode flat, no wrinkles.

6

Mark it Shipped in the planner.

The shop app emails the tracking number to the customer.

- Packed column is empty.

7

Hand over to USPS.

Book a free USPS Package Pickup on usps.com (check that it takes Ground Advantage), or drop off at the post office.

- Keep the scan receipt until delivered.

Hold the box if

- The order changed or was cancelled.
- The address looks incomplete (no apartment number, no ZIP).
- The box is crushed or a corner is open: repack it.

Hartwood Designs, SOP-7, Rev A, 2026-10-12. Times and settings marked Estimate are planning numbers until measured on the real machine. Machine details follow the OMTech manual when it differs from this sheet.
