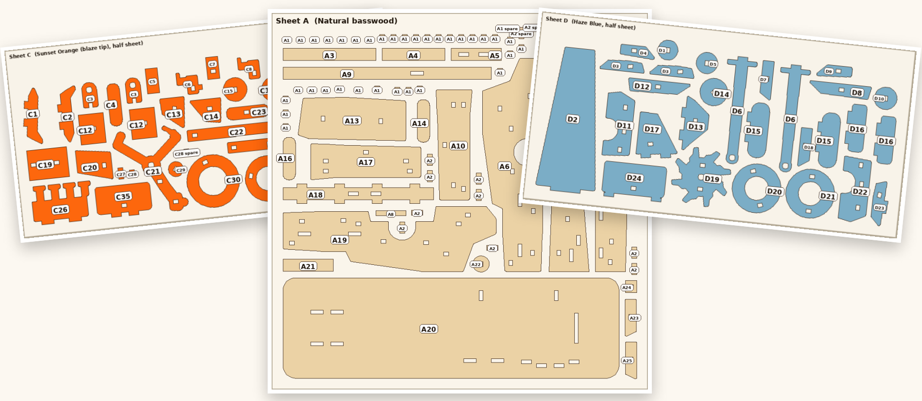
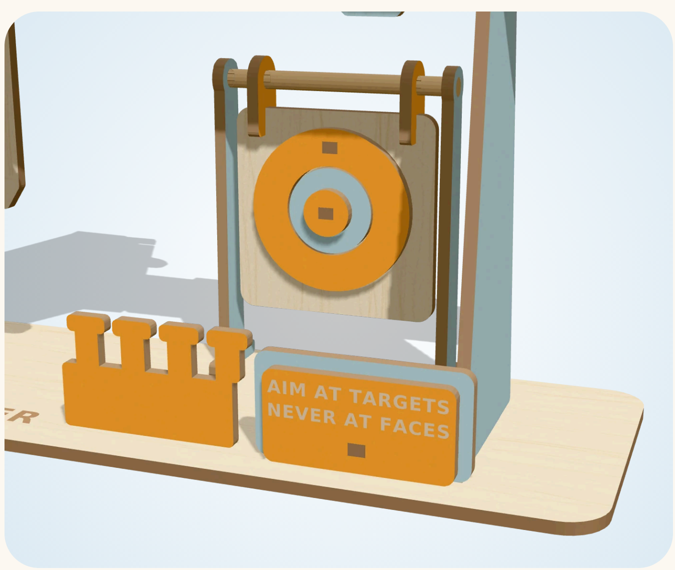
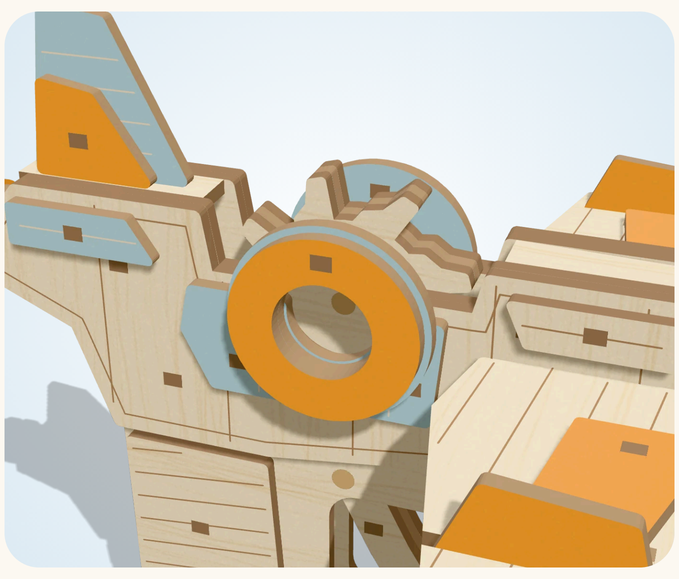
Build a Star Slinger

The Star Slinger is a little starfighter with a big secret: a clockwork star wheel in its engine. Load up to seven rubber bands, aim at a paper target, and each pull of the trigger lets exactly one band fly. Its blaze orange nose is built into the ship, so it always looks like what it is: a toy. Build the mechanism, test it at each step, then show it off on its launch stand.



What's inside: 4 sheets that press out by hand





IN THE BOX

153 wooden parts on 4 sheets (plus 57 spare small parts), 4 birch dowels, 14 rubber bands, 3 paper targets, wax stick, sandpaper, picture instruction booklet.

EASY TO BUILD

- Every joint is a press fit. No glue.
- Big picture steps, part codes on every sheet.
- Spare small parts on the sheets.

Scan to build in 3D on your phone, step by step.

DETAILS

Parts	153
Size	31 × 14 × 18 cm 12.2 × 5.6 × 7.1 in
Build time	5 to 6 h
Level	●●●●○
